

Smart Classroom Instructions: TLP Pro 720T w/ Lecture Capture

Inputs: Clicking on an input will switch to that source.

Power: Turns the projector on and off. A pop-up will appear for projector off, confirming if you want to turn the projector off.

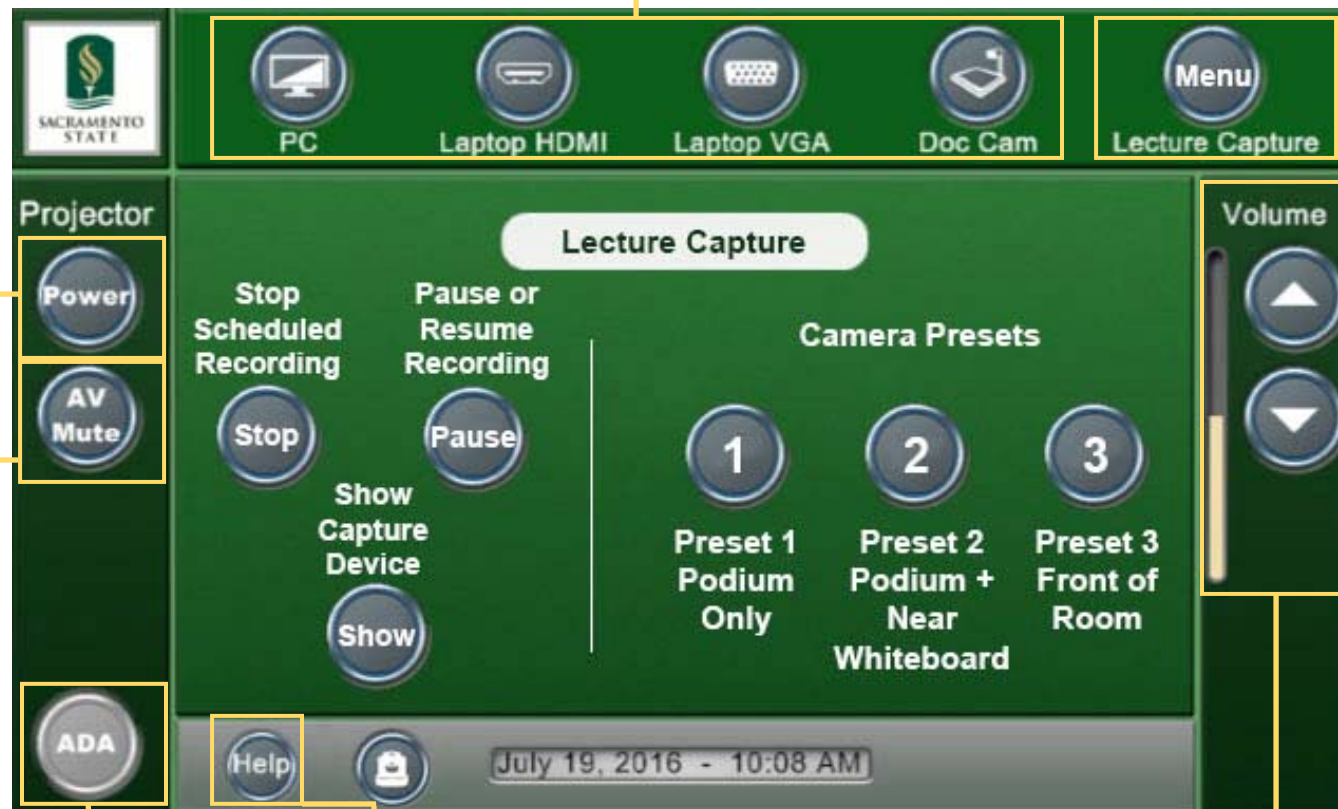

AV Mute: Mutes the sound and blacks out the signal to the projector. You will still be able to see the image at the podium.

ADA: Changes color scheme for easier readability.

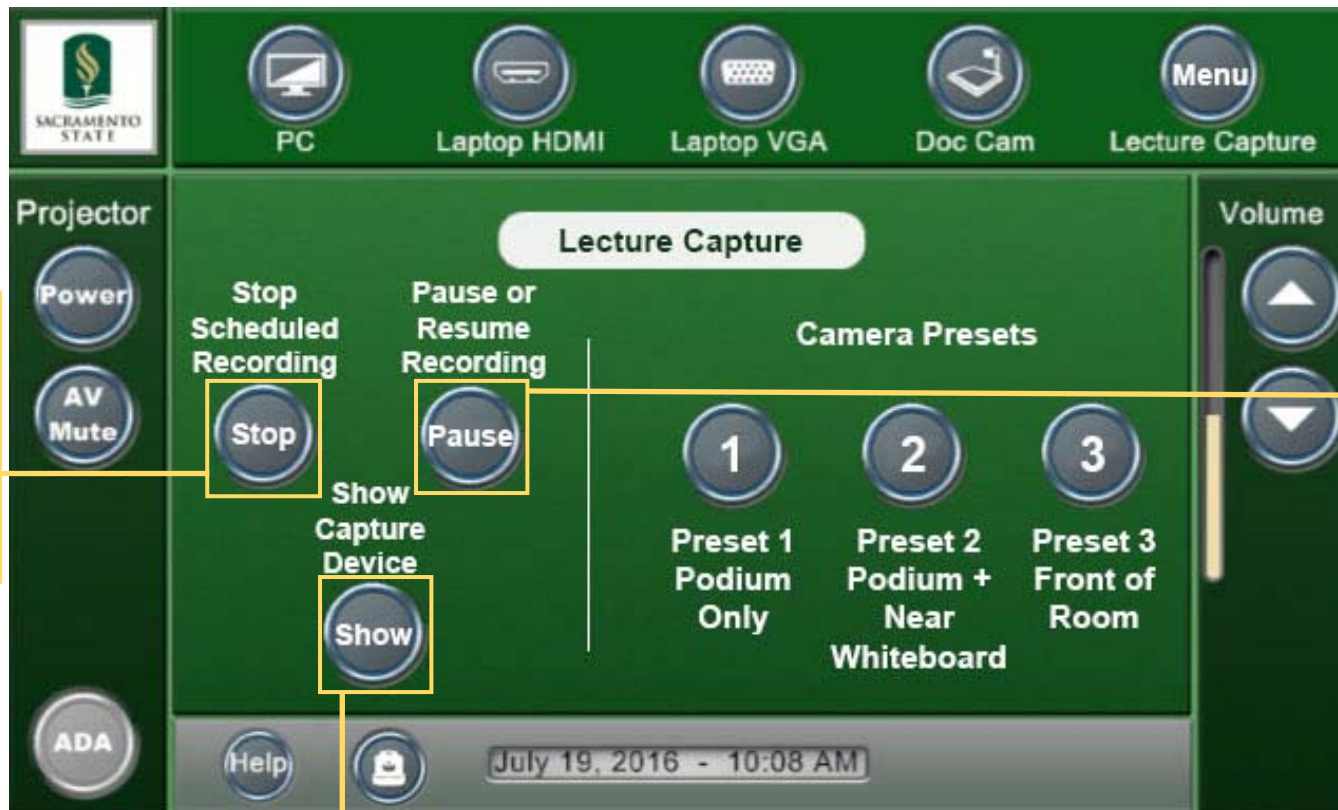

Help: Brings up a help message with IRT Learning Space Services phone number (916)278-7337 option 1.

Volume: Turns the sound level up or down. The amplifier may have a brief delay in response.

Lecture Capture: Brings up a pop-up with options for controlling classroom recording. Clicking this button will not start a recording.

Smart Classroom Instructions: TLP Pro 720T w/ Lecture Capture

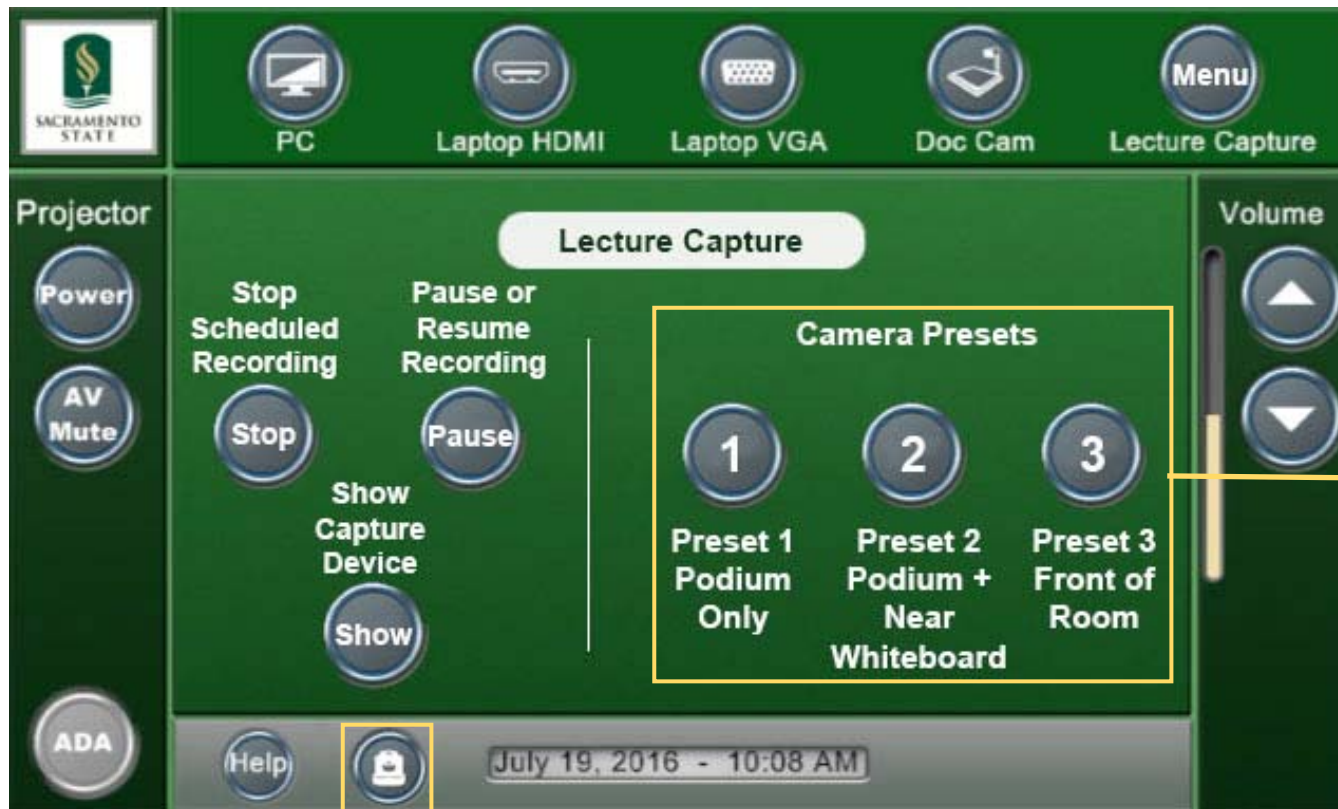

Stop Recording:
Stops the recording, it can NOT be started again.

Resume/Pause:
Pauses an in progress recording, when pressed again, it will resume the recording.

Show Capture Device:
Shows the lecture capture screen on the local monitor only. Allows users to see what is being recorded.

Smart Classroom Instructions: TLP Pro 720T w/ Lecture Capture

Camera Presets:
Allow user to change which preset the camera is using. This feature can be used before or during recording.

Extra Camera Presets: This button will open a pop up with more camera presets. The pop up menu will have more presets that are labeled, much like the presets above.
